

## OUR CHALLENGE

The Fifth Ward CRC engaged us to assist in a complete redesign of their website. They wanted it to be a reflection of the services they provide the community.

## OUR SOLUTION

Our team provided creative and website services to develop a website that would be a resource for residents and potential partners. We also provided digital content services for social media templates.

## OUR IMPACT

The Fifth Ward CRC now has a digital property that allows them to catalyze resources to build and preserve an inclusive 5th Ward Community by developing places and opportunities to live, work and play.
